

Jason & Kathryn Peters Testimonial

My wife and I bought our house and land from Bruner Land Company in July of 2006. Two years later we bought another 5 acres next to our original property. WOW, we have a nice home and a beautiful 17.5 acres of land. We enjoy living here. In the beginning of August I set up my treestand, put up a feeder and put in a food plot. I began scouting. On September 29, 2009 I found some free time to bow hunt in the afternoon. I made my way to my treestand about 2:30 pm. It wasn't long before I started seeing activity, a few does and some smaller bucks. Around 4:30 pm the buck I had been hoping for stepped into bow range. I pulled back and let go! He only got 30 feet before dropping. I didn't have far to go to find him. I harvested a huge ELEVEN POINT buck with double brow tines! This is the biggest buck I have ever harvested. I am very happy with our land. We got a good deal on the acreage and our house, but it was worth a million dollars to me!
